***Our Vision***

To sustain Winona Health as an exceptional provider of community owned, not-for-profit health care.

***Our Mission***

To gather, steward, and distribute resources needed to support and advance the mission of Winona Health and its affiliates. The successful implementation rests on four cornerstones:

**A CULTURE OF GENEROSITY:** actively seeking to expand our base of family, friends, and neighbors who support the vision of providing excellent health care in our community.

**COMMUNITY ENGAGEMENT:** sponsoring special community projects and educating the community about the Foundation and Winona Health services and programs.

**ACCESS:** providing access to quality health care based on need regardless of the ability to pay.

**A PASSION FOR EXCELLENCE:** investing in equipment, facilities, technology and training essential to sustained innovation in the practice and delivery of health care in our community.

Winona Health's services span the continuum of care from welcoming new sons and daughters into the world to providing residential care and everything in between to the residents of Winona and surrounding communities. Winona Health's nonprofit affiliates include Community Memorial Hospital, Lake Winona Manor, Roger Metz and Adith Miller Manors, Home Care, Winona Area Hospice Services, and Winona Health Physician Clinics (including Winona Clinic as of January 1, 2008).

Charitable contributions to the Winona Health Foundation impact our community in many ways:

- *Ben & Adith Miller Patient Care Fund:* providing financial assistance to those who are uninsured or under insured and in need of medical care
- *Newborn Hearing Screening Device:* making sure our littlest patients get the best start in life
- *Tranquility Chapel:* designed to meet the spiritual needs of Lake Winona Manor residents and their families
- *Renal Dialysis Suite:* world class dialysis care
- *Winona Area Hospice Services:* adding life to days when days can no longer be added to life
